

I have been a listener and supporter of KLOVE for years and I love the no commercial, positive music and information that they bring to my life. If KLOVE were to be displaced by an LPFM broadcaster providing other programming, the community would surely be hurt. The opportunity of having family friendly radio in my community is important. PLEASE DO NOT TAKE IT AWAY. No other station provides the music and positive message that KLOVE provides and it should be in the FCC's interest to promote and provide an outlet for stations that want to spread hope, love and the positive word of Jesus to the community, instead of letting shock jocks on because they have advertising support. The people support KLOVE, please don't take it away! Thank you.
